SUMMARY

Motivated Computer Science graduate and aspiring software developer with hands-on experience in Python, Django, React, JavaScript, SQL, and REST APIs, along with academic research and publications. Passionate about building user-friendly applications, solving real-world problems, and continuously developing technical skills.

TECHNICAL PROFICIENCIES

- **Languages:** Python, JavaScript, SQL
- **Web Technologies:** HTML, CSS, React.js, Django, Django REST Framework
- **Databases:** MySQL
- **Tools:** Git, GitHub, VS Code
- **Core Concepts:** REST API Design, JWT Authentication

PROJECTS

E-Commerce Web Application

Django / Python / HTML / CSS / JavaScript / MySQL

- Developed an e-commerce web application with product, category, customer, cart, and order management features.
- Implemented backend functionality, database operations, CRUD features, and user-related functionality using Django and MySQL.

Hospital Management System

Django REST Framework / React.js / JWT

- Developed a full-stack hospital system with 9 relational models, REST APIs, JWT authentication, role-based access, and Doctor/Patient CRUD.
- Implemented appointments, prescriptions, medicines, billing, filtering, search, protected routes, validation, and error handling.

PROFESSIONAL EXPERIENCE

Teaching Assistant (TA)

October 2024 – May 2025

Presidency University

- Assisted faculty with academic activities, course coordination, student support, and research-related tasks under Prof. Dr. Hakikur Rahman.
- Supported academic events and departmental activities while managing website content, documentation, and information updates.

EDUCATION

Bachelor of Science in Computer Science & Engineering

2021 – 2025

Presidency University

CGPA: 3.54 / 4.00

Higher Secondary Certificate (HSC)

2019

Chattogram Cantonment Public College

GPA: 4.67 / 5.00

Secondary School Certificate (SSC)

2017

Government Muslim High School, Chattogram

GPA: 5.00 / 5.00

RESEARCH & PUBLICATIONS

A Comparative Analysis of Machine Learning Algorithms for Predicting Student Academic Performance

Journal of Data Analytics and Intelligence, Vol. 2, Issue 1, 2026

Empowering Aging Communities: The Role of AI-Driven Assistive Technologies in Fostering Independent Living

Proceedings of the XIII International Scientific Conference, Vol. II, pp. 326–341, European University Brčko District, 2025

Heart Disease Prediction Using Machine Learning

Academic Project

Developed machine learning models for heart disease risk prediction using clinical datasets. Evaluated multiple algorithms using accuracy, precision, recall, and confusion matrix.

LEADERSHIP & EXTRACURRICULAR ACTIVITIES

Joint Secretary – Presidency University Social Services Club

2024 – 2025

Supported club activities, student initiatives, and social service programs.
